

Kora-Inspired Prototype Print Packet

Private review. Source workbook: kora-design-table.xlsx.

Design Summary

20.3 in segmented bowl, 9.8 in depth, 51.2 in interpreted neck, 21 strings from workbook schedule.

Safety Holds

Revise string percent-break, proof-load neck/tail, test bridge/head pressure, use low-tension mule first.

Cultural Holds

Use kora-inspired/prototype language. Do not claim authenticity or traditional authority. Seek review before publication.

Build Workflow

Workbook audit, segmented bowl, rim/head, neck/tail proof-load, bridge prototype, low-tension stringing, measurement.

Validation

Record string frequency, bridge lean, head deflection, neck deflection, humidity, and cultural-review status.

Release Recommendation

Keep private pending cultural review, safety validation, measured prototype data, and owned visuals.
